

Stitcher's Garden 2017 BOM

The Stitches Garden Block of the Month quilt will have you learning to use a different sewing machine presser foot each month and how to utilize decorative stitches on the sewing machine. Each class is independent from the other classes. Create a beautiful quilt sized 85" x 93". Each month for 12 months explore a new technique with guided instruction and hands-on practice like machine appliqué, couching, pintucks, circle sewing attachment, bobbin work and decorative stitches.

Each month there are printed handouts with detailed instructions and applique pattern shapes. There will be a supply list for each month so you know what to bring. Please note that this is only an in-store program. We are not able to ship out handouts. The program was designed by [The Stitch Connection](#).
